

## What do you think of when you think of Fremont?

### **Fremont Sunday Market**

A weekly opportunity for people to meet and visit with their neighbors, as well as browse goods and services unavailable anywhere else. Provides livelihoods for scores of small businesspeople.

**Currently being sued by Sound Mind & Body.**

### **The Solstice Parade**

This annual tribute to art & life attracts thousands of residents and visitors to the streets of Fremont in a high-spirited celebration of creativity.

**Sound Mind & Body routinely objects to the temporary street closures that make this event possible.**

### **Car-Free Days**

The first Car-free Day in North America was held in Fremont in September 2001. Artists, businesses, and residents united to highlight the dangers of auto overuse and to offer workable alternatives, sparking a movement which has spread to other US cities.

**Sound Mind & Body resisted the permit.**

No neighborhood in Seattle has been more radically transformed by art and community events than Fremont. Ten years ago, Fremont was not a particularly attractive place to live or work, but through a concerted effort by its residents, Fremont has been transformed into “the center of the universe”—a great place to live, work, create, and recreate.

So why does Sound Mind & Body Gym continually oppose the very activities that, by making Fremont a destination, have contributed to SMB’s success? It just doesn’t make sense...

Please take a moment today to tell the ownership of SMB Gym that you support the community events that make Fremont great. Thank you.
