

Welcome to Democracy!

Your one-minute phonecall or email could affect the fate of the world!

THE ISSUE

Congress is currently voting on whether or not to give George Bush authority to launch an unprovoked war against Iraq as a first step towards establishing the US as lone superpower and policeman of the world. The UN and most of the world is protesting this possibility. If the US acts, it will do so alone, shunning global popular opinion. The last nation to aspire to such global domination was Nazi Germany.

WHAT YOU CAN DO

The good news is we live in a country where the voice of the people can still be heard. As phone calls and emails flood Congress, more and more representatives are finding the strength to vote their consciences and say NO to Bush's imperial doctrine. Practice democracy by calling these numbers or sending email via the websites here.

NUMBERS TO CALL

"Where are the voices of outrage over what amounts to a frontal assault on the constitution of the United States? Democracy silenced is awful."
